Dear John,

Thank you for your in-kind donation of car service from Hull to Fenway Park and back for or a very deserving family.

The Seat Swap is a new and unique, 501-c3 non-profit that allows children throughout Massachusetts, who are emotionally, financially, or physically unable to afford tickets on their own, to attend Professional sporting events. Tickets are mainly donated by generous ticket holders, and the Seat Swap then covers all additional expenses for the family to fully enjoy the positive experience without worry or concern.

The Seat Swap is in a league of its own, allowing corporations and individuals to give a gift that directly affects the recipient of their donation.

The car service was a complete relief for this specific family, who through financial and health struggles, have left them without a car .

Like the teams we support, we have powerful beliefs. We have the ability to rally talented and passionate people together for a common cause, and inspire others to pay forward good will and team spirit.

Thank you again for your kindness and we look forward to more making dreams come true in the year ahead.

Sincerely,

Jackye Colligan
